STATEMENT OF OBJECTS AND REASONS

Act 10 of 1968.- The practice generally followed in acquisition of lands under the Land Acquisition Act, 1894 is that, a single notification is issued under section 4(1) of the Act which indicates that a particular area of the land is needed or is likely to be needed for public purpose. This is then followed by one declaration under section 6 of the Act in respect of the land specified in the aforesaid notification to the effect that such land is needed for a public purpose or for a Company. The Supreme Court has recently held that when once a declaration under section 6 of the Act is issued, whether it be in respect of a part of the land comprised in the notification under section 4(1) or in respect of whole of it, the effect of the initial notification is exhausted and no further declarations under section 6 of the Act are sustainable. In other words, Government cannot acquire land by means of successive declarations following the notifications under section 4(1) in respect of particular area. In view of this it would be difficult to acquire lands required, particularly, for bigger projects, where consistent with the requirements of the situation, land will have to be acquired in stages and a single notification under section 4(1) will have to be followed with more than one declaration under section 6 of the Act. By doing so, not only much time could be saved but also the necessity of notifying the required extents under section 4(1) several times is dispensed with, besides having the advantage of freezing the land value of the required extents by issue of a single notification. It would be difficult to reopen cases where more than one declaration has been issued and to start proceedings afresh. This would seriously affect the schedule of the projects for which lands are urgently required.

Consequently, to overcome the difficulty existing under the provisions of the Land Acquisition Act and in view of the urgency of the situation affecting many important projects and also to facilitate early payment of compensation to the land owners, the Land Acquisition Act, 1894 has to be amended. It is proposed to provide that, if necessary, more than one declaration may be issued from time to time in respect of different parcels of any land covered by the same notification under section 4, sub-section (1) of the Act. The Parliament has made similar amendments to the Act by the Land Acquisition (Amendment and Validation) Act, 1967. Care has been taken to ensure that land acquisition proceedings do not linger on for unduly long time. This amendment therefore provides that no declaration under section 6 of the Act should be issued in respect of any particular land covered by a notification under section 4(1) published after the commencement of the amended Act, after the expiry of three years from the date of such publication. In case of pending proceedings, it has been provided that no declaration under section 6 of the Act in respect of any land which has been notified before the commencement of the amended Act under sub-section (1) of section 4 of the Act may be issued after the expiry of two years from the commencement of the amended Act. The proposed amendment will achieve this object.

Provision for certain incidental matters like payment of interest and validation of proceedings already taken has also to be made.

Hence this Bill.
